

SARASWATI MAHILA MAHAVIDHYALAYA, PALWAL

LESSON-PLAN

Class: Bsc first year med.

Semester: II

Subject: zoology Life and diversity of

Session: 2020-21

Annelida to Hemichordata

Lecture Number	Topic
1	Unit 1 Annelida General characters and classification
2	Biodiversity of Annelida
3	Economic importance of Annelida
4	Type study of Annelida (Pheretima earthworm)
5	Pheretima Earthworm type study
6	Type study of Pheretima
7	Metamerism in Annelida
8	Trochophore larva - affinities
9	Evolutionary significance
10	Revision Test of unit -I
11	Unit- II Arthropoda general characteristics
12	Classification of Arthropoda
13	Biodiversity and Economic importance of Insects
14	Type study Pheretima
15	Type study Pheretima
16	Type study Pheretima
17	Type study Pheretima
18	Revision Test unit -II

19	Unit- III mollusca general characteristics
20	Classification of mollusca
21	Biodiversity and Economic importance
22	Type study of pila
23	Type study of pila
24	Torsion and derision in gastropoda
25	Respiration and foot
26	Revision Test of unit - III
27	Unit- IV Echinodermata General characters
28	Classification of Echinodermata
29	Biodiversity and Economic importance
30	Type study asteries sea star
31	Echinodermata larvae Aristotle's
32	Hemichordata type study Balanoglossus
33	Type study Balanoglossus
34	Revision Test of unit- IV
