

SARASWATI MAHILA MAHAVIDHYALAYA, PALWAL

LESSON-PLAN

Class: B.sc 2nd year medical

Semester: 4th

Subject: zoology (Life and diversity of chordates-II)

Session:2021-2022

Lectures	Topic
1	Unit-1:- Amphibia- Origin and evolutionary tree
2	Type study of frog- General characters and classification
3	In continuation with type study of frog
4	In continuation with type study of frog
5	In continuation with type study of frog
6	In continuation with type study of frog
7	Parental care in amphibia
8	Revision
9	Unit-2:- Reptilia- Origin and evolutionary tree
10	Type study of Lizard- General characters and classification
11	In continuation with type study of Lizard
12	In continuation with type study of Lizard
13	In continuation with type study of Lizard
14	In continuation with type study of Lizard
15	Extinct reptiles
16	Poisonous and non- poisonous snakes, poison apparatus in snakes

17	Revision
18	Unit-3:- Aves- Origin and evolutionary tree
19	Type study of Pigeon- General characters and classification
20	In continuation with type study of Pigeon
21	In continuation with type study of Pigeon
22	In continuation with type study of Pigeon
23	In continuation with type study of Pigeon
24	Flight adaptation
25	Principles of aerodynamics in bird flight, migration in birds
26	Rivision
27	Unit-4:- Mammals- Origin and evolutionary tree
28	Type study of Mammals- General characters and classification
29	In continuation with type study Rat
30	In continuation with type study of Rat
31	In continuation with type study of Rat
32	In continuation with type study of Rat
33	Adaptive radiation in mammals
34	Dentition in mammals
35	Rivision
